

Presta® Marine HydroProtek Ceramic Spray

DESCRIPTION

Presta® Marine HydroProtek is an SiO2 Ceramic spray-on formula designed to shine, protect and beautify your watercraft or recreational vehicle. HydroProtek is long lasting, absorbs UV rays, adds gloss and easily sheets water off. HydroProtek should be used at least once per season on a clean boat or RV. This formula is safe for all surfaces, including hull, windows, trailers, wheels and trim. This ceramic spray will bond with gel coat and clear coat to create a durable, hydrophobic surface, prolonging the life and ease of cleaning for any watercraft.

DIRECTIONS

Presta® Marine HydroProtek requires a clean, smooth surface for proper installation. Ensure the surface is completely clean and dry. Shake the bottle well before using. Spray HydroProtek onto one section at a time. Distribute evenly using a clean ultra-soft microfiber towel, and buff to a smooth shiny surface. For ideal bonding results, keep the boat or RV dry for at least 4 hours after completion.

FEATURES AND BENEFITS

Produces the ultimate final finish	Bonds with surface for outstanding depth of gloss
Designed to complement the Presta Marine buffing and polishing compounds for showroom results	4X faster than traditional waxes - Spray-on formula simplifies application for experts and novices alike
Provides up to a full season of durability	Excellent hydrophobic properties allow water and dirt to slide right off
