

DESCRIPTION:

Presta Marine UV Crème Wax provides long lasting shine and UV protection on fiberglass, gelcoat and painted marine finishes in one easy step. Advanced technology polishing agents and waxes combine with amino-functional silicones, dual functional UV absorber, silicone resin and polymers to create unbeatable gloss and exceptional protection against salt, corrosion and the sun's ultraviolet rays.

DIRECTIONS:

- Before applying, wash boat thoroughly with Ultra Concentrated Boat Wash (# 166232) to remove heavy accumulations of dirt and grime.
- Make sure surface is cool and dry prior to application.
- Shake well before using.
- Apply UV Crème Wax to the surface using a soft cloth or wax applicator pad and spread wax to a thin, even film. Apply to one section at time or to the entire surface.
- Allow wax to dry to a light haze and polish off either by hand using a soft, clean micro fiber cloth or with a random orbital polisher.

FEATURES & BENEFITS

Advance technology polishing agents	<ul style="list-style-type: none">• Provides UV protection for fiberglass, gel coat & painted finishes• Protects against salt, corrosion and UV rays• Exceptional shine and protection in one easy step
Ready to use product	<ul style="list-style-type: none">• Easy to apply and easy to polish
