## LEATHER PROTECTION IS NOW EPIC!

**EPIC™ Leather Coat** is the newest addition to the EPIC™ family, designed to bring high quality protection to leather.

This formula effectively forms a protective barrier for leather and vinyl surfaces that eliminates liquid spills, clothing colour transfer and the harsh effects of the sun. It's satin-gloss finish is unmatched and is highly versatile with it being suitable for boats, RV's, home furniture, shoes and more.

To ensure the best results for you, we've put together some crucial do's and don'ts **WHEN** it comes to leather care...

### DO's

- Before going in with the Leather Coat, vacuum thoroughly to get rid of any type of dirt that may cause scratches when you clean.

- Keep on top of your leather care as it contributes greatly to it's durability and can make such an immense difference to the presentation of your car.

### DON'Ts

- Don't just leave the product to dry on the seats. Massage it in until it has been absorbed!
- Don't soak your cloth with solution as excessive liquid can result in great damage to the leather.

**About Us:** Pacer Auto Products Pty Ltd has been servicing motor vehicle and marine industries in Australia since 1996 with Exclusive Malco & Presta products.
