

MALCO[®] DUPLEX HEAVY DUTY CLEANING WIPES (2900)

DESCRIPTION

Malco Duplex Heavy Duty Cleaning Wipes are a versatile dual sided cleaning towel. These wipes are designed for the toughest soils on hard surfaces and hands. This citrus based formula tackles virtually any clean up challenge without leaving residue behind. The textured side has grit for loosening grease, oil, adhesive, spills, and stains. The smooth side is ideal for a final wipe and when texture isn't needed. Duplex wipes are safe for hands and won't dry them out. These wipes can be used around the home, in the garage, on vehicles, RV's, boats and more.

DIRECTIONS

1. Remove lid by lifting upward.
2. Pull towel from center of the roll and thread through the "X" on the underside of the lid.
3. Pull towel at a 90-degree angle to break away sheet.
4. To prevent towels from drying out when not in use, snap hinged cap back in place.

Use the textured side to loosen stubborn stains, baked on grease, oil or tar. Use the soft side for general purpose cleanup where an abrasive is not required. Use on hands to lift dirt from skin pores. On vinyl, leather and cloth, test for colorfastness in an inconspicuous area first.

FEATURES AND BENEFITS

Dual-sided, soft, and abrasive	Removes grease, tar, adhesives and more
Safe for most surfaces including leather & vinyl	Pleasant citrus scent without leaving stains or residue
Lanolin won't dry out hands	Versatile for the home, auto, garage, boat, and RV

PACKAGE SIZES

- 130 Count - Part number: 2900130

Malco Duplex Heavy Duty Cleaning Wipes FAQ's

1. Are these made by Malco?
 - a. Yes, the formula and assembly are all manufactured by Malco, with domestically sourced substrates and packaging. All Made in the USA.
2. Can I use these directly on my skin?
 - a. Yes, they are safe for hands and arms, not recommended for the face or other parts of the body.
3. Will these remove paint or ink?
 - a. Yes, especially if they are water based.
4. Can these be used on soft surfaces like vinyl, leather or fabric?
 - a. Yes, but it is always recommended to test in an inconspicuous area for colorfastness.
5. Are these safe for all hard surfaces?
 - a. Generally speaking, yes. They are safe for Formica, marble, granite, stainless steel, aluminum, hard plastic and glass. However, the textured side is not recommended for painted surfaces as it will scratch. If there is any doubt, test.
6. Why do these have two sides?
 - a. The textured side is abrasive for loosening stains and hard to scrub soils. The smooth side is for wiping up easier stains and for gentle cleaning of the hands.
7. Can they be used for disinfecting or sanitizing?
 - a. No, they will not kill bacteria or viruses.
